LEADING THE WAY WITH CUTTING-EDGE TECHNOLOGY

RECRUITING TOP CANDIDATES WITHIN TECHNOLOGY AND INNOVATION

Autonomous intelligence, adaptive and predictive machines, visual object recognition and deep learning, mobile apps with predictive and inferential engines.

These are just a few of the innovations our team is leveraging at American Water to benefit our customers and employees. Our team is growing and there are job opportunities across Technology and Innovation for people with experience in AI, machine learning, product development, Java programming, GIS, data lakes, API economy and many other roles.

WORK WITH US

There aren’t many companies who can say they’re responsible for the most precious resource on earth. But American Water can. We are a water utility company that provides drinking water, plus wastewater and related services, to households and businesses in 45 U.S. states and Ontario, Canada, as well as 13 military bases, serving over 14 million people.

At American Water, we prize enthusiasm, creativity, teamwork, and innovation. We are looking for candidates who will help drive technological advancement and are passionate about learning all for the same purpose - to keep life flowing for our customers.

American Water is moving to a new, state-of-the-art building on the waterfront of Camden, N.J., conveniently close to Philadelphia and South Jersey.
