Design or Develop amazing digital experiences and apps

The tech industry is looking for the next generation of women and diverse people to develop websites and apps.

Info Sessions: April 16 & 17 @ 9am

What is TalentPath?
TalentPath is a paid 6 month Treehouse Techdegree and Apprenticeship program with weekly check-ins, company mentorship, equity & inclusion training, financial literacy courses and more. After successful completion of the Techdegree and paid 6-month apprenticeship you will be eligible for full-time job placement with Verizon in New Jersey.

Who can participate?
All persons served by Middlesex County Workforce Development Board and their partners. No previous experience with design or coding necessary.

Where is the apprenticeship located?
This opportunity is located at the Verizon offices in Piscataway, NJ. Those who are selected will be expected to report to the onsite Dojo each week day starting June 3rd to complete the paid training and apprenticeship program. This is your time to apply what learn to real-world applications and see first-hand what it is like to work as a developer at a tech company.

Want More Info? Come to the Info Session
